

National Donor Sabbath

Communities across the United States will observe National Donor Sabbath Nov. 12–14 this year. National Donor Sabbath is a time when faith and religious leaders, families, transplant recipients, and donation and transplantation professionals share the valuable message of organ, eye, and tissue donation with faith and spiritual communities. Donation is viewed by many faith and spiritual communities as a final act of love and kindness.

With more than 110,000 individuals nationwide awaiting a lifesaving transplant, we encourage you to designate your donation decision and share it with your loved ones. You can register to be an organ, eye and tissue donor today at ShareLifeMidwest.com or when you visit your local licensing office.

For any questions related to organ, eye and tissue donation, please email Midwest Transplant Network: info@mwtn.org.
