

National Donor Sabbath

This weekend, we honor the gift of life offered through organ, eye and tissue donation during National Donor Sabbath. Through donation, we are allowed the opportunity to give one final act of love at the end of life. More than 2,200 people in Kansas and Missouri are awaiting the lifesaving gift of organ donation — possibly including someone you know. During the weekend of Nov. 11–13, we invite you to reflect on organ, eye, and tissue donation and, if you have not already, consider joining the organ, eye, and tissue donor registry at ShareLifeMidwest.com or when you visit your local licensing office. Then, discuss your decision with your family and loved ones to ensure they understand your wishes.

Have questions about donation? Please reach out to our partners at Midwest Transplant Network at info@mwtn.org.
